Frank Watanabe  
Public Works Director  
City of Sebastian  
1225 Main Street  
Sebastian, FL 32958

Dear Mr. Watanabe:

I am pleased to share the attached plan set containing the 100 percent designs for final review for the All Aboard Florida project within the City of Sebastian. These plans represent the culmination of a thorough design exercise, which began with your staff during the Florida Department of Transportation Grade Crossing Diagnostic Process in 2014 and culminated with AAF's receipt of plans approval from the Federal Railroad Administration this week. These plans meet the Federal Railroad Administration's (FRA) Highway-Rail Grade Crossing Guidelines for High-Speed Passenger Rail and all applicable FDOT standards and regulations.

In this package, you will find:

- Letter from FRA noting Final Environmental Impact Statement compliance on final 100 percent plans
- Summary of Grade Crossing Warning Devices for Quiet Zone Analysis (i.e. which safety enhancements will be constructed at each grade crossing)
- 100 percent design plans:
  - Crossing Layouts
  - Roadway Plans
  - Signing & Pavement Marking Plans
  - Signalization Plans
  - Utility Plans

Please take this early opportunity to review the plans. Our team will reach out to you soon to schedule an in-person meeting to gather your feedback.

As we have previously stated, we remain committed to working with your staff and the community. Thank you for your department's participation in the grade crossing design process. We look forward to your continued engagement.

Thank you,

A handwritten signature in blue ink, appearing to read "Adrian Share".

Adrian Share, P.E.  
Executive Vice President, Rail Infrastructure
